

**Holiday home work for summer vacation**

Date -10-05-2021

Class - V

Home work -1<sup>st</sup> week

**Sub: - English and Social Studies**

Dear Parents

Our children are learning a lot of new skills, are being exposed to the latest in technology and becoming more scientifically oriented. Today's child is adept at multifarious skills. But it has been observed that their interest in the culture and heritage of our great country is limited to curriculum or text books.

India boasts of a rich heritage that bespeaks of its glorious past. The composite and dynamic character of our culture is a result of the rich contributions of all the diverse groups and spread over a long period. Yet our students are either not well acquainted with our beautiful culture or only have bookish knowledge of some well known states/ cities. However this wonderful land of ours has so many treasures that it would take several lifetimes to learn about them.

Amidst the ongoing challenges, this year we have planned some unique activities for our children to learn while playing. We have planned to send our little explorers on a quest to explore the hidden land of **ASSAM** where they will learn about monuments, dances, festivals and so much more, beyond their textbooks. This is collaborative homework of Social Science and English.

Each student is expected to choose a district of ASSAM [of their own choice like TEZPUR etc.] and explore the various field [any four] in the light of the following and prepare a power point presentation or flip book of maximum 5 pages:

- Language/s-many unwritten and some slowly dying.
- Architecture n monuments
- Festivals
- Cuisine
- Topography, flora and fauna.
- Well known scientists, patriots, leaders etc.

 Use relevant pictures,video links,tables ,text,captions etc.

✚ You may refer the link given below for steps to create flip book .
