

**Holiday home work for summer vacation**

**Date - 11-05-2021**

**Subject – Science**

**Class - VII**

**Home work no. - 1**

1) Read the following passage and solve the questions-

In 1949, a study of heart disease included 5,137 adults: 2,292 men and 2,845 women. All the individuals were 49 to 70 years of age, and none showed any signs of coronary artery disease. After 14-16 years of careful follow-up, it was found that:

- I. 151 men and 37 women showed evidence of coronary artery disease that would account for a heart attack.*
- II. 102 men and 18 women died of coronary artery disease before they reached the age of 65.*
- III. 58 percent of the men and 39 percent of the women died within one hour of having a heart attack.*
- IV. For both men and women, sudden death was more likely if they were under age 55 at the time of the attack.*
- V. Not all heart attacks produce symptoms. A considerable number of men and women had a myocardial infarction (heart muscle damage) without knowing it. Of those who suffered such "silent coronaries"; 22 percent of the men and 35 percent of the women did not know muscle damage had occurred.*

**In the design of this study, the researchers made sure that**

1. some individuals had coronary artery disease
2. some individuals were in their thirties
3. the number of men and women was equal
4. all participants were adults

**2. As explained in the study, a person who has a "silent coronary"**

1. is unaware of any heart attack symptoms
2. does not scream in pain while having a heart attack
3. shows no evidence of heart muscle damage
4. always dies of a myocardial infarction

**3. A woman who is 53 years old has a heart attack. Compared with a man, she is more likely to**

1. die of coronary artery disease before age 65
2. have a "silent coronary"
3. die within an hour of the attack
4. die as the result of a heart attack after age 65

**PROJECT WORK**

**SHOW BY AN ACTIVITY THAT LIGHT IS NECESSARY FOR PHOTOSYNTHESIS (IN BOOK PAGE NO-7).  
MAKE A VIDEO AND SEND IN MY WHATSAPP NUMBER (7001834504)**

**Holiday home work for summer vacation**

**Date** - 11-05-2021

**Subject – Social Science**  
**Class- VII**

**Home work no.- 1**

**Create Manuscript**

Make your own manuscript.

Take leaves and quill pen for writing the manuscript. Also make a cover page of your manuscript and use a ribbon for tying it up.

Answer the following:

1. How the earlier people wrote?
2. Difficulties in writing.
3. Difficulties storing the manuscripts.

**Subject – English**

**Make a display card of A4 size:**

**a) Use an A4 size sheet/chart paper of white/ green/ yellow/ light blue colour.**

**b) Read and explore about the given writers –**

- Sarojini Naidu
- Arundhati Ray
- MulkRajAnand
- Dr A P J Abdul Kalam
- R K Narayan
- Rabindranath Tagore
- Ruskin Bond

**c) On the sheets, provide the following information about the author-**

- Date of birth,
- name of parents & education
- Popular works Awards received.

**Laminate the card and present it beautifully.**

**Bal Bharati**  
**PUBLIC SCHOOL**  
NPGC NABI NAGAR, BIHAR  
CBSE AFFILIATION NO. 330932
